REPUBLIC OF ESTONIA
AGRICULTURE AND FOOD BOARD

European infant formula factory with unique production technology. Recipes proven by time.

Compliant with world standards - recognized in all world cultures

The enterprise is certified and approved according to the standards of HACCP, ISO 9001:2015, GMP, HALAL, etc.

Option for unique recipe for each dealer

When manufactured under "private label" it is possible to produce a product with special recipe that is in demand on definite market.

Selected infant grade raw materials

For the production of baby formulas, the plant uses raw materials that are intended specifically for baby food.

Rational logistics reduces waiting time and saves the quality of the product

The plant's logisticians will help organize the prompt delivery of finished products to any country in the world by road, sea and air transport.

Multistage quality control

Before shipment, each batch of finished products undergoes a complex analysis in the plant's certified laboratory.

Freshly prepared product with maximum shelf life

The plant's products are shipped immediately after production, which maximizes the time of its storage in the warehouses of dealers or on the shelves of their customers' stores.

A balanced food is the foundation of an infant's health

The vital for babies unique proportions of vitamins enhance the effect of each component. A unique balance of vitamins, trace elements and nutrients as close as possible to breast milk.

High technology – gentle production

Modern technologies and equipment of the plant make it possible to preserve all the beneficial substances of the ingredients for the maximum benefit of the finished product.

Oxygen-free packaging system

A special packaging system additionally protects the product and keeps it fresh for a long time. And the branded packaging design will attract the attention of buyers to the product on store shelves.

Family

Code	Category	Product	Age	Description	Valuable components in the composition	Package	Cans in a box	Cans on a euro pallet
